DETAILED ACTION***Election/Restrictions***

Claims 1-25 are allowable. Claims 10-25, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions I-IV, as set forth in the Office action mailed on 7 April 2005, is hereby withdrawn** and claims 10-25 hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-25 are considered allowable based on the showing under 37 CFR 1.132 by the affidavit filed 17 January 2007, and the limitation, a biasing force to said pressing roller in a direction intersecting with a plane connecting the respective center axes of said fixing roller and said pressing roller, which requires an angle between the line connecting the axes and the biasing force, in combination with the limitation, each of the coil springs having one end engaged with a corresponding one of both ends of the pressing roller.
